

Inventory External Transfer Report

Availability: All CompuPawn systems.

Example: This is an example of the report generated by CompuPawn when an Inventory Transfer Diskette is created.

Inputs Used: Determine reporting period (*Shift, Date, etc.*)

- *Start Shift / End Shift* = {Shift numbers accounting for month}
- *Start Destination Store / End Destination Store* = {2, for all external transfers to Store #2}

This report is a listing of the inventory that is to be transferred from one store to another and can be used as a checklist when making the inventory transfer.
