
Mailing Labels Distribution Report - Zip Code List

Availability: All CompuPawn systems.

Inputs Used: Determine parameters for generating labels

• *Print Zip Code List Only (Y/N)* = {**Y**}

Example: Using this option allows you to print the zip code list only *without* printing mailing labels. Use this list to determine your mailing needs to various zip codes.

NOTE: This list will be printed along with Mailing Labels when labels are printed.

Mailing Labels - May Birthdays

Availability: All CompuPawn systems.

Inputs Used: Determine parameters for generating labels

- *Start Birth Date / End Birth Date* = {05/01/00 / 05/31/00}
- *Print Zip Code List Only (Y/N)* = {N}
- *Labels Across* = {1,2,3,or 4: 2 in this example}

Example: This page shows sample mailing labels which can be printed in a variety of configurations. In this example, customers with the same birthday month (May birthdays of any year) were selected for printing. Notice that the customer number is printed on each label. This allows you to quickly access a customer's history should (s)he bring in a marketing brochure or flyer with a mailing label attached.

Mailing Labels - 2 or More Jewelry Purchases

Availability: All CompuPawn systems.

Inputs Used: Determine parameters for generating labels

- *Types* = {S, "Sales" transactions only}
- *Category* = {16, for jewelry transactions}
- *Number of Transactions* = {2, for multiple jewelry purchases}
- *Labels Across* = {1,2,3,or 4: 4 in this example}

Example: By using the combination of "Types", "Categories", and "Number of Transactions" input fields you may explore a variety of ways to send literature to your customer base. For example, if you want to advertise a sale on jewelry, for the holidays, etc., you may wish to target those customers who have made more than one jewelry purchase from your pawnshop in the past. The criteria used in this example selects all customers who have made 2 or more jewelry purchases and prints customer labels for mailing purposes.
