

## Product Reorder Report

**Availability:** CompuPawn—Inventory Processing & Reports for those configured with the Product Module

**Example:** This example shows the Product Reorder Report which lists those items that are due to be reordered, along with the suggested reorder quantity for each item.

**Inputs Used:** Determine reporting selection criteria (*Product ID, Make, Model, Category, Vendor, etc.*)

• *Show Inventory Detail (Y/N)* = {**Y**, prints full description of the inventory item}
